

TECHNICAL DATA SHEET

VS Print / VS Premium

Product	Moisture Barrier sheet
Component	Three-Ply component (Paper / Olefin / Paper)
Product Width	MAX. 1,250mm (VS Print)
Application	This product is intended for indoor furniture surfaces. This product can not be used for outdoor application.
Laminates	Lamination (roll/continuous) and profile wrapping treatments are feasible on substrates such as plywood, MDF, particle boards and so forth.
Surface textures	Standard coating, Synchronized gloss/matte effect, Synchronized gloss/matt tactile effect.
Gloss levels	Depending on the surface texture, available in gloss level gradations ranging from matte to gloss.
Weather resistance	No significant changes under ultraviolet fade meter for 20 hours. *Light resistance improvement available on request
Resistance	In accordance with DIN 68861, Part 1C IOS-MAT-0066 2.1.A R4/R2 quality available. IOS-MAT-0066 2.1.K R2K quality available for G-Effect finish.
Formaldehyde	Formaldehyde free
Moisture permeability	$\leq 10\text{g/m}^2 \cdot 24\text{h}, \leq 22\text{g/m}^2 \cdot 24\text{h}$ (in accordance with JIS)
FSC certification	FSC MIX credit materials available on request.
